MAIN FEATURES

Sales Quota planning

Transform your commercial plans into challenging but achievable quotas for your sales force. Take advantage of advanced simulation analyzes to understand in advance the economic and financial impacts of possible alternative courses of action.

Sales force engagement and motivation

Give your sales organization visibility of their performance with a Performance Monitoring Dashboard and let them simulate what they can earn by reaching certain goals. Communicate incentive plans to your sales organization, track sales reps and sales managers acceptance of plans and communicate results through commission statement and bonus payout documents.

Incentive compensation management

Easily manage quota and territory changes throughout the year, design different incentive plans to ensure a motivated sales force. Guarantee accurate, timely, and auditable commission and bonus payments. Manage financial accruals for future payments and amortization of sales costs based on built-in financial logic.

Sales performance and compensation analytics

Track performance of sales team comparing plans vs. actual performance to continuously monitor that you are effectively working towards strategic goals. Analyze year over year performance of your sales team. Ensure that your sales staff is effectively compensated to always keep them motivated.
